

# Horn Honey

- Spring/fall planted perennial mix offering year-round food source
- Performs well on medium to heavy soil types in light shade to full sun
- Chicory will thrive during summer months
- Includes high energy legumes that will thrive in various geographical locations

Horn Honey is specially formulated with high quality clovers and chicory that will be sure to bring in the does and BUCKS! With proper planting and maintenance, this mixture will last for years. A solid foundation for any quality deer management plan.
