

Wildlife Sunflower (Peredovik Type)

- Performs well on light to heavy soil types in light shade to full sun
- Food source for various bird species later in fall/winter
- Spring planted annual offering cover & food source for upland game birds
- Drought tolerant

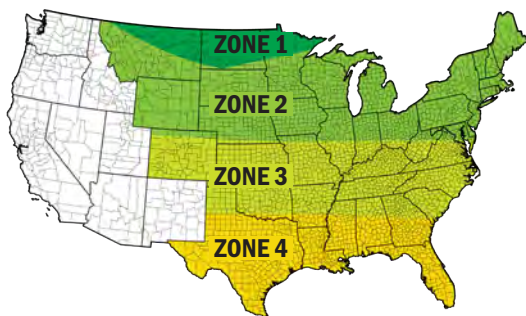

Wildlife Sunflower is a special attractant to upland game birds as fall and winter feed. Wildlife Sunflower is preferred by dove, quail, turkey, pheasant and other species of upland game birds. Wildlife Sunflower is a very drought tolerant crop. It is a very reliable source of fall and winter feed because of the tolerance to limited and sporadic supplies of available moisture.
